### **AFFECTED CHANGE CATEGORIES**

- TEST SITE

### **DESCRIPTION OF CHANGE**

Freescale will bring online a second final test facility for MPC8314/MPC8315, using the subcontractor KTM. KTM facility will implement the same test programs, procedures, and equipment currently used in Freescale's KLM test facility. KTM is a long time Freescale partner that currently tests many Freescale products.

The location of the final test facility is identified on the second line of marking on the device's lid. The second line's first one or two digits identifies the final test facility. For devices tested at KTM, the first two digits will be "MZ". For devices tested at the existing facility (KLM), the first digit will be "Q".

**REASON FOR CHANGE**

This change will enable Freescale manufacturing flexibility, and thus improve service to its customers

**ANTICIPATED IMPACT OF PRODUCT CHANGE(FORM, FIT, FUNCTION, OR RELIABILITY)**

No change to form, fit and function

---

**NOTE:**

THE CHANGE(S) SPECIFIED IN THIS NOTIFICATION WILL BE IMPLEMENTED ON THE EFFECTIVE DATE LISTED ABOVE. To request further data or inquire about the notification, please enter a [Service Request](#)

For sample inquiries - please go to [www.freescale.com](http://www.freescale.com)
