

Product/Process Change Notice - PCN 15_0033 Rev. -

Analog Devices, Inc. Three Technology Way Norwood, Massachusetts 02062-9106

This notice is to inform you of a change that will be made to certain ADI products (see Appendix A) that you may have purchased in the last 2 years. **Any inquiries or requests with this PCN (additional data or samples) must be sent to ADI within 30 days of publication date.** ADI contact information is listed below.

PCN Title: AD9671/AD9675 Die Revision

Publication Date: 23-Mar-2015

Effectivity Date: 23-Mar-2015 *(the earliest date that a customer could expect to receive changed material)*

Revision Description:

Initial Release

Description Of Change

Revision of a digital circuit block on the JESD204B serializer so that it is not powered down during STANDBY mode.

Reason For Change

The JESD204B link resets and does not properly recover from STANDBY mode.

Impact of the change (positive or negative) on fit, form, function & reliability

The revision restores proper/intended function after returning to RUN mode from STANDBY mode as described in the product datasheet. Change results in small increase to standby power dissipation.

Product Identification *(this section will describe how to identify the changed material)*

1506 or later

Summary of Supporting Information

Due to the minor nature of the change no qualification testing required.

Supporting Documents None
